MEMORANDUM CIRCULAR NO. 49
Series of 1993

TO : ALL CONCERNED AGENCIES/ENTITIES

SUBJECT : Use of "Concentrated Method" When Conducting Examination for Parasites

In view of the growing number of Filipino workers in Taiwan who are found to have parasites, all accredited hospitals/clinics are hereby instructed to use the "concentrated method" when conducting examination for parasites.

Further to this, Taiwan's Department of Health requested that no contract worker found to be positive with parasites be deployed to Taiwan until fully treated or cured to avoid their repatriation.

For immediate compliance.
