MEMORANDUM

TO: ALL CONCERNED OFFICES/UNITS

SUBJECT: Offline Service of POEA Database on July 10 and 11, 2003

We have been experiencing disruption of network services since July 7, 2003 due to technical problems affecting the hardware and software components of our database server. Please be advised that this temporary situation will prevail until July 11, 2003.

To regulate the workload of our server and to enable the EDP Branch to conduct appropriate preventive measures, the database server will be offline between 11:30 AM to 1:30 PM on July 10 and 11, 2003. Hence, all activities making use of the POEA database will be disconnected at that specified period. However, Internet services will continue.

All units having connections with the POEA database are enjoined to suspend their transactions at 11:30 AM and resume operations at 1:30 PM. This also involves all frontline services at the Balik-Manggagawa Processing Center, Landbased Center, Seabased Center, and Government Placement Branch.

For your information and guidance.
