SPURIOUS EMPLOYMENT IN GHANA

The Philippine Embassy in Abuja, Nigeria has reported that some Filipinos had been recruited by some groups and individuals offering spurious employment in Ghana. The Embassy has recommended the strict monitoring of Filipinos leaving for Ghana to prevent more workers from being victimized by illegal recruiters.

At present, deployment of Filipino workers to Ghana is minimal, averaging to only 50 workers per year. The majority are administrative and managerial workers.

For the information and guidance of all concerned.
